Election/Restrictions

Applicant's election with traverse of Species IV comprising figure 29 in the reply filed on October 4, 2004 is acknowledged. The traversal is on the ground(s) that the various karabiners are closely related and there is no significant burden due to searches having already been performed. This is not found persuasive because the various species are classified in different subclasses based upon the locks or there being no locks and the particular gate structure and are very distinct. The fact that election was not required earlier is regretted, but does not negate the distinctness of the species. Further, applicant fails to indicate that the species are obvious variants over each other.

The requirement is still deemed proper and is therefore made FINAL.

Claims 15-20, 27 and 28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species. Applicant timely traversed the restriction (election) requirement in the reply filed on October 4, 2004.

Claims 15-20, 27 and 28, directed to the species I, II, III and V remain withdrawn from further consideration since the independent claims 15 (species I), 17 (species II), 19 (species V) and 20 (species III) do not depend upon or otherwise include each of the limitations of an allowed generic claim as required by 37 CFR 1.141. The independent claims to these species do not include each limitation of an allowed generic claim and for this reason all claims directed to these species remain withdrawn.

This application is in condition for allowance except for the presence of claims 15-20, 27 and 28 to an invention non-elected with traverse in the reply filed on October 4, 2004. Applicant is given **ONE MONTH or THIRTY DAYS** from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's

Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
